Dear Sir or Madam,

I am writing to express my interest for the position of Full Stack Webfrontend Entwickler für Python/React bei LeanArc . I learned about this opportunity from ETH's job platform and I would be very motivated to work in this domain.

Currently majoring in Computer Science at ETH Zürich, I will receive my Bachelor degree next spring. While I have solid knowledge of the computer science theory, I lack hands-on experience and I would like to gain some before getting my first diploma. I feel that the position you propose would satisfy those needs, while allowing me to further my knowledge in this domain and to be of help in this great project.

Additionally I am very fond of frontend-development and handling python workloads and have some experience with the latter (2 courses at ETH where the projects had to be coded in python).

I would like to meet you and discuss the job opportunity.
Please let me know if you have any questions. You can reach me per mail at dcolonna12.dc@gmail.com, or by phone at +33652258564.

Thank you for your consideration.

Yours sincerely,

David Colonna
